Volkswagen Amarok	2825kg	3285kg

QLD Transport Legal Suspension Lift & Upgrades

Hayman Reese Compact IQ

The Compact IQ™ is one of Hayman Reese's most sophisticated brake control units. This proportional brake control unit has been developed to make it both easier & less intrusive to install and provide the driver with greater control in braking situations.

Baintech TowMate

This solid state unit operates with a pre-set braking force utilising microprocessor technology. This new generation of brake controllers has been designed for both single and dual axle trailers using negative earth (ground) systems only. Rugged and compact, it is easily installed with the simple connection of four wires and comes with a remote control. This unit incorporates an override function for independent braking of the trailer from the vehicle brakes – which helps to prevent potentially dangerous swaying and snaking.

**WE SELL & INSTALL... Towbars, Reversing
Cameras, Towing Accessories & More!**

REDARC Tow-Pro Classic

REDARC'S range of Electric Brake Controllers provide ultimate safety when towing, offering a smoother trailer braking response suitable for 12 or 24 volt vehicle systems. The Tow-Pro Classic Electric Brake Controller is the next generation Electric Brake Remote Head (EBRH), now with the extra performance and reliability of the Tow-Pro platform.

REDARC Tow-Pro Elite V3

The award winning Tow-Pro Elite Electric Brake Controller is the only brake controller in the market to offer two types of braking in the one unit - Proportional and user-controlled modes. The Tow-Pro Elite V3 Electric Brake Controller is the next generation of the award-winning Tow Pro Range.

**WE SELL & INSTALL... Towing Mirrors, DC-DC
Chargers, Hotwired Anderson Plugs & More!**
